

## Junior Analysts or Trainees

Accuracy Spain – Madrid & Barcelona

Are you a final-year student, a young graduate or a young professional eager to become a highly skilled consultant and work in a challenging multi-cultural environment? Looking for a career where you will operate and grow in a stimulating, international team and be rewarded for your efforts and achievements? Looking for an organization that fosters the entrepreneurial spirit of its consultants?

### **JOIN OUR SPANISH TEAM!**

#### **About Accuracy**

Accuracy is a young, fast-growing and exciting company with offices all across Europe, in Asia (New Delhi, Dubai, Singapore, Hong Kong, Beijing), Africa (Morocco) and Canada.

We provide financial advisory services to corporates and institutions to support their strategic and critical decision-making in transaction, dispute and crisis environments.

For further information visit [www.accuracy.com](http://www.accuracy.com).

#### **Job description**

As a Junior Consultant or Trainee, you will find yourself immersed in some of the most interesting disputes and high profile transactions in the world. You will work with your team to provide technical, analytical and reporting assistance to a diverse portfolio of law firms, companies and financial investors. You will contribute to expert reports addressed to clients, Courts and Tribunals.

No two projects are the same and you will be constantly challenged and required to think creatively to support the delivery of high quality services to our clients. You will be able to learn and grow rapidly thanks to our professional development program and positive expectations policy.

#### **Requirements**

We are looking for exceptional candidates who are analytical, dynamic and self-confident, yet humble. You will need to demonstrate curiosity, enthusiasm, willingness to learn, a commercial interest, common sense and attention to detail.

Our consultants come from a variety of backgrounds but all of them:

- Have studied a **quantitative discipline** such as finance, accounting, economics, math or engineering.
- Possess excellent oral and written **communication skills**.
- Are **proficient in MS Office** (VBA, big data and other programming skills are also valued).
- Are **fluent in English and Spanish** with a high level in a third language (preferably **French or Portuguese**)

#### **Application**

If you tick those boxes, we would love to hear from you so **please send your CV and cover letter to [careers.spain@accuracy.com](mailto:careers.spain@accuracy.com)**
